Mines and Mining.

Editor GAZETTE.

Carbonateville, N. M., Dec. 13.—Business is brisk in this camp at present, mining being pushed rapidly along. Contracts are being let every day. An English Company have (so I have been informed,) bought the Good Hope and other claims near it. They intend working the Good Hope and Diamond mines at once. A great deal has been written about this mine, and every one who has visited it, knows that it is a bona fide investment. The L. H. Whitson Company are erecting machinery on the Nick of Time. I think this company have or are about to change their name to "The Rue Alenia Consolidated G. & S. Mining Co." The Cash Entry has closed down, and the owner will soon go east on important business. A rich strike was recently made in the Mermaid Prince during the past week, the assays taken from it, showing \$130,000 in gold to the ton. This mine shows largely of free gold. Specimens showing free gold can be found on the dump. The Nashville Mining Co. are taking out good ore from the Chatta noga lode, adjoining the New York mine. They are down forty feet and the vein improves as they go down.

A company has been formed in Philadelphia to work the New York and Clara mines. A branch office will be established at this place with S. H. Bernard as superintendent. We are moving right along in the right direction to make this a paying camp. The day is not far distant when we will produce bullion. New buildings are being erected on the plaza. Capitol is finding its way to the camp. At the station things are taking a lively turn. The smelter owners are buying up ore. They intend making it a success. Two new hotels are under erection, a large two-story and half store is under erection. A new company has charge of the coal bank, they are shipping loads of coal and have a large number of men employed. Mr. J. G. Albright, the editor of the *Democrat*, paid the camp a visit during the past week and was highly pleased with his trip. Hoping to write you soon again, I am yours, etc.

A Case for Charity.

One of the Detroit millionaires was walking homeward yesterday, when he encountered a lame man with a greasy paper in his hand. As the pair came to a halt, the lame man asked: "Will you do me the favor to read this paper?" "Can't do it—left my eye-glasses at home," was the reply. "Then I will state the contents to you." "No use—no use. I'm so deaf that I couldn't catch more than one word out of three." "I'm a poor man with a wooden leg, sir." "Yes—I see—I see. You are lucky, sir, and I congratulate you. Must have cost you \$50, and I presume it is a nice leg." "If you had any clothes, sir?" "But I haven't." "Or old boots?" "I'm wearing my old boots, you see. You are just six months too early to get 'em." "I haven't had a meal since yesterday." "Nor I, either. We are cleaning house, and for the last three days I've had to eat a cold lunch off the piano." "Then you couldn't spare a nickel?" "How can I? Ain't I walking home because I haven't money to ride on the car?" "Is that so? Then we're both hard up." "Of course we are." "And being you're the worst off here's a cold sausage I got at the house below, and here's a nickel to ride on the car. I tell you, sir, poor folks has got to have more pity for the rich and do better by 'em or we'll go to the poor house."

No More Nevada.

The enterprising politicians of Dakota, New Mexico and Washington have determined to procure the introduction of bills in Congress looking to the accession of these vigorous young Territories to the membership of the union. It is to be hoped these bills will be defeated. There can be little doubt that the proposition is a job contrived for the benefit of political wirepullers, and not for the interest of the people. The admission of Nevada some years ago was a machine contrivance to increase the vote of the Republican party in the Senate. It is absurd to maintain that the Territorial form of government repels population or capital. The government of Nevada to-day proves the unsoundness of this theory. She had a larger population as a Territory than she has now a State. Her expenses are heavier, taxation is greater, and neither life nor property is more secure. We should not add to the list of rotten borough states. Dakota, Washington and New Mexico have time enough. The rings that succeed in obtaining control of the affairs of new States in the first years of their Statehood are generally the worst in their history. The lines of the new commonwealths should be laid down in the interest of the people, not of the politicians. Mere mining camps are not entitled to representation in the Senate and House of Representatives. —New York Herald.

Beginning June 29th next, a music festival, lasting a week, will be held at Philadelphia, and to which the music societies of the country will be invited.

The grand jury at Omaha have adjourned without finding an indictment against August Aradt, who has been suspected of assassinating Colonel Smith.

"Do you ever take anything?" asked an Australian candidate leading a prominent citizen into a saloon. "Do I ever take anything? Don't you remember I have been a member of the Legislature?" That settled it. He took something.

A small boy once saw a pin lying on the sidewalk, and picking it up, placed it carefully in his jacket. His action was seen by a rich banker, who took the boy into his service, and in time he was made cashier of the bank and stole all the money. After he had restored half of his plunder, and was getting ready to go to Europe for his health, the banker said to him: "Why did you pick up that pin, unless you were the honest boy I took you for?" "Because," said the wicked cashier, "I had read that story when a child, and was looking for a sucker to play the game on." —Chicago Tribune.

CHEAP GOODS.

A Great Reduction Until January 1st
